## This week's cover.

*"Three Faces of Eve" or in this case, three faces of Ron Thate: on our cover as bar manager at the M&M for the past three years, and also in his role of Rona in which he has offered his time and talents for numerous benefits throughout Milwaukee's gay community; and at right in his M&M baseball uniform, with Wreck Room bartender Steve Arneson. A native of Burlington, Wis., just southwest of Milwaukee, he moved to the Beer City six years ago. He formerly worked at the Auctioneer Inn as a bartender. He says he enjoys creativity in almost any form and particularly likes to bartend because it allows personal contact with people, which he enjoys.*

## INSTINCTS

I was recently part of a discussion of instincts and was surprised at some of the views expressed that indicated belief in instincts in humans. C.A. Tripp writes in *The Homosexual Matrix* (Signet, 1975). "In all lower mammals, sexual activity is rigorously regulated by *specific physiologic controls*, a new and careful phrase . . . for what used to be called 'instincts'." Hormones that make female lower mammals ovulate also control their sexual readiness signals. These signals may be body movements, color, odor, or all of these. They arouse the male. This arousal makes the male exhibit gestures that cause the female's next move, and so on (11). "Virtually every movement is predetermined by keyed responses" a complex cycle. An example is that in the male dog the inside of the front legs must be stimulated at one point before he can begin pelvic thrusts" (12).

"The picture is sharply different at higher evolutionary levels." For monkeys and apes the sexual patterns are not stereotyped," they are almost entirely dependent upon individual learning." Male monkeys, he writes, respond to a receptive mate, "but they have not the slightest idea of how to go about it." The monkey may "rub the penis against a female's leg, against her side, or . . . insert it into her ear." Trial and error eventually leads to intercourse but even then a monkey's solution to the problem may be individualistic "such as persuading the female to sit down on his erect penis while he reclines" (14). As we go up the evolutionary scale, the cerebral cortex takes over control of more voluntary behavior, including sexual behavior. And at the same time there is "progressive relaxation of specific physiologic control ('instinct') over sexuality."

Thus human beings derive sexual behavior "from what is individually

Here's the Wreck Room team, which last week, clinched at least a tie for second place in the Saturday Softball Beer League.

#### M&M SSBL TEAM ENDS SEASON UNDEFEATED, CLINCHES TITLE

M&M's Saturday Softball Beer League team concluded its season undefeated by taking a doubleheader from the Finale.

Earlier in the week, M&M had clinched first place and a trip to Los Angeles as Milwaukee's representative in the gay softball world series by defeating the Wreck Room in a doubleheader.

The Wreck Room team bounced back from those two losses and clinched at least a tie for second place by sweeping both games from the M&M Mustangs. The Factory, who can tie the Wreck Room for second place by winning its remaining two games, defeated the Ball Game in two games.

The Finale almost pulled the upset of the season in their second game with the M&M, losing only by a 12-9 score. The Wreck Room broke a 6-6 tie, scoring four runs in the bottom of the sixth to win the first game with

the Mustangs. Then, trailing 4-0 in the second game, the Wreck Room erupted for 11 runs in the fifth inning, with all the scoring coming after two outs. Phil H.'s three-run homer highlighted the 11-run explosion. Donnie H. homered for the M&M Mustangs.

### CONCERNED ABOUT REFUGEES To the Editor:

I have been very concerned about what is to happen to the gay and lesbian Cuban refugees. At first, I thought let other people do it—I've got too much of my own life to worry about; after that I felt helpless—that it was too big a problem for one person to make a dent in; *then* it occurred to me that even if I couldn't solve the whole problem, I could do a little—I could give a few pants or shirts, use my extra room or send \$5 a week.

If everyone of the 20,000,000 gay men and lesbian women in the USA could think about the little they can do and *do it* we would have the refugees resettled in a very short time.

Take a minute—think about what

you can do: do you have an extra room? Do you have old clothes?—clean out those closets!! Can you pledge \$1, \$5 or \$10 a week? Can you offer a job or keep your eyes open for jobs?
