Napalese Lounge Owner Loch Succumbs at 74

(Green Bay) Well-known Green Bay area gay bar owner and businessman Malcolm "Mal" Loch, died unexpectedly at his home Thursday, August 31, 1995. He was born January 6, 1921 in Green Bay to the late Joseph and Mary (Ronk) Loch.

In addition to owning the popular Napalese Lounge, Loch also owned and operated the Bay Motel and the Bay Family Restaurants. In the mid-1980's Loch provided space for the then-fledgling Center Project AIDS service organization to operate and hold HIV-testing clinics. He was also a veteran of World War II serving in the Navy in the South Pacific.

Survivors include four brothers and three sisters-in-law, numerous nieces, nephews and many friends.

Visitation was held September 3 & 4 at the Lyndahl Funeral Home in Green Bay. Funeral services at St. Elizabeth Seton Catholic Church were conducted on Labor Day and burial in the Fort Howard cemetery followed.

Mal was devoted to his family and friends and will be sadly missed.

News (1) on the case of a friend who reversed neuropathy, lymphadenopathy (swollen lymph nodes) and wasting syndrome with a home drink made from whole lemons, fruit juice & olive oil. After ten days, my friend said his swollen lymph nodes & neuropathy were 90% gone. He no longer needed his cane.

Since this initial report was published, I have talked to 29 HIV+ persons who have used the drink daily. They have all reported a complete cessation of swollen lymph nodes in 5 to 7 days. What is most surprising is that no one reported that the drink failed to reduce lymphadenopathy. In addition, 11 of 13 persons with wasting syndrome have reported a weight gain of 1 to 2 pounds per week. Persons who were of normal weight or who were overweight when they started the lemon drink have not reported any weight gain. One PWA from Ft. Myers, Fla., who was 30 pounds underweight, recently wrote that he has gained 21 pounds in eight weeks using the whole lemon/olive drink daily. Two persons with neuropathy have reported that 90% of the symptoms were gone within two weeks and completely gone within three.

Other benefits reported are increased energy, appetite and a more normal body temperature. Presently, there are no controlled scientific studies being done with lemons or olive oil in the treatment of AIDS or symptoms associated with the disease progression. Certainly, no claims are being made that this simple home remedy will cure anyone of AIDS. A single anecdotal case that is successful is no basis for thousands of people to try a new treatment. However, from all reports I have received, the treatment is safe and effective. The number of persons reporting benefits is becoming statistically significant. This treatment is not patentable. No pharmaceutical company will make money on this simple and inexpensive discovery. The Whole Lemon/Olive Oil drink is made as follows: (1) Cup up one medium lemon into quarters. This includes the rind and seeds, and place in a blender. (2) Add one cup of orange juice or other fruit juice or water. (3) Add one teaspoon of cold pressed Extra Virgin Olive Oil. (4) Blend at high speed for 2 minutes. (5) Pour mixture through a strainer to separate juice from the pulp. Discard pulp. Remaining liquid may be consumed all at once or divided into 2 or 3 daily portions. For neuropathy, two 19 grain lecithin capsules are taken with the drink three times a day.

In all three conditions, neuropathy, lymphadenopathy and wasting syndrome, I have found saliva pH to be on the acid side (5.5 to 5.8). pH is a measure of the degree of acidity or alkalinity of a substance. The whole lemon/olive drink usually causes saliva pH to return to a normal range of 6.2 to 6.4 within 2 to 3 days. In 6 cases I observed,

weight gain starts when saliva pH reaches 6.2. However, it is not known if the whole lemon drink reduces the HIV viral load as measured by PCR. Future research is needed to answer this question and to determine if any benefits in immune stimulation are occurring from the daily use of this drink.

Miss Gay Wisconsin-USA To Participate in AIDS Walk Wisconsin

(Green Bay) - Loretta LaMour, the recently-crowned 1995 Miss Gay Wisconsin-USofA, will be a Positive Voice team participant in this year's AIDS Walk Wisconsin, to be held in Milwaukee on Sunday, September 17.

"My family has been directly affected by AIDS," Miss LaMour said. "I hope that I can use my celebrity as a titleholder can bring a heightened awareness of both the Walk and this disease's continuing impact on the gay community."

Joining Miss LaMour on the team will be DeeDee Winters, Miss Emerald City-USofA. According to Miss Winters, she's walking in the memory of those of the female impersonator community who have died from AIDS and in support of all who continue to live and struggle with the disease.

The celebrity sign-ups were welcomed by PV president Lloyd Schaefer. The Positive Voice team is open to anyone from northeast Wisconsin's gay/lesbian community. We will travel by motor coach with total time commitment day of the Walk at less than a half a day. "Positive Voice's monetary goal is to top the '94 \$1600 total team contribution.

Close to 10,000 people have registered to participate in the 6th annual AIDS Walk as Quest went to press, a record-breaking total according to AIDS Resource Center of Wisconsin (ARCW) sources. Vice-President Al Gore remains scheduled to serve as honorary co-chairperson in addition to his wife Tipper who is already confirmed to participate. In addition to ARCW's four agencies, the Madison AIDS Support Network and Center Project, Inc. of Green Bay are co-sponsors and major beneficiaries of the annual 10K fundraiser scheduled to begin at Noon on the Summerfest grounds on Milwaukee's lakefront. Nearly a dozen other community-based AIDS groups from throughout the state also receive portions of the monies raised.

AIDS TREATMENT BREAKTHROUGH

Keep Hope Alive.... by Mark Konlee

Neuropathy is a painful disorder of the nervous system causing numbness, burning or aching sensations in various parts of the body. Swollen lymph nodes (lymphadenopathy) affects 80% of all persons with AIDS at some point in the disease progression. Wasting syndrome is a progressive loss of muscle mass. In Africa, AIDS-related wasting syndrome is called "Slim's disease."
